On behalf of the International Symbiosis Society, I would like to invite you to the 9th ISS Congress. The meeting will be held at Oregon State University, Corvallis, Oregon, USA. The ISS Congress is the sanctioned meeting of the International Symbiosis Society and is held every three years. It is the primary international meeting focusing on symbioses, including complex interactions between hosts and their microbiomes. The Congress is anticipated to bring together 400 symbiosis scientists from up to 20 nations to present the latest research in symbioses, their ubiquity in nature and their impact on all environments on the planet.

Please visit the ISS Congress 2018 website for more information on the meeting. Follow ISS Congress 2018 on Twitter, Facebook and Instagram

Abstract submission: January 1 – March 1, 2018
Registration begins: February 15, 2018

The Congress will be organized around a series of cross-cutting themes:
- Susceptibility and resilience of symbioses in the Anthropocene
- Ecology of symbioses
- Mechanisms of host-microbiome interactions
- The host-microbe interface: signaling, recognition and regulation
- Tinkering with symbioses: experimental insights into host-symbiont systems
- Rise and fall of symbioses: evolutionary transitions
- New tools and approaches for studying symbiosis

Keynote speaker: Ed Yong, science writer and author of the book on symbiosis: I Contain Multitudes

There will be eight plenary speakers. Speakers to date:
- Ruth Gates, University of Hawaii, USA
- Margaret McFall-Ngai, University of Hawaii, USA
- Joel Sachs, University of California at Riverside, USA
- Toby Spribille, University of Alberta, Canada

Some travel awards will be available to students

Features to plan for:
- Field trips to the Oregon coast and mountains
- Farm-to-table banquet at a local orchard

Watch the website and follow social media for updates. I hope you can join us!

Sincerely,

Virginia Weis
